

1. Draw a plant cell on one side of the paper.
2. Draw something that is NOT alive on the other side (such as a school).
3. Label your 5 parts on the plant cell (spelled correctly!)
4. Label 5 parts on the other side with the same jobs. Make sure to put the cell part in brackets beside it.
5. Colour.

You must include:

- Nucleus
- Cell membrane
- Chloroplast
- Vacuole
- Mitochondria

Level	Criteria
1	3-4 parts labeled incorrectly and/or incorrect comparisons
2	1-2 part labeled incorrectly and/or incorrect comparisons
3	All parts labeled correctly, correct comparisons
4	One extra part labeled correctly, correct comparison
